

Approaching Hoofbeats ~ signs we saw decades ago ~ February 2024

(Edited 573 words excerpts from harbingersdaily.com ~ by Jonathan Brentner ~ endtimes2024.odt)

In 1983, Billy Graham's book *Approaching Hoofbeats* sparked hope for the nearness of the Rapture.

In the past six years, Klaus Schwab and the World Economic Forum (WEF) have come out of the shadows and revealed their true intentions to the world. They have invited news media into their once-secret meetings and revealed their intentions under the title: "Build Back Better." That is a euphemism for their clearly stated intent to create a Marxist, totalitarian, one-world government.

In 2 Thessalonians 2:3-10 we can see the prophecy of the Antichrist gaining control under the cloak of promoting peace. In 1983, a group called "trilateralists" began pushing for a one-world government. Today, the WEF plan for world domination as described in the book of Revelation clearly stated. Sadly, too few people are paying attention.

The Threat of Nuclear War was a major concern in 1983 . . . but now, today, most analysts believe nuclear war is imminent in the next few years. January 23, 2024, "The Bulletin of the Atomic Scientists" reset their Doomsday Clock back to ninety seconds before midnight.

In February 2023, Putin announced his decision to suspend Strategic Arms Reduction Treaty, and in March, he announced the deployment of tactical nuclear weapons in Belarus. Then in June, Putin advisor Sergei Karaganov urged launching nuclear strikes on Western Europe to bring the war in Ukraine to a conclusion.

In January 2024, the U.S. national debt reached \$34 trillion. In 1983, the debt was \$1.377 trillion. Everyone knows that this is unsustainable; but it also tells us that the black horse prophesied in Revelation 6:5- 6 will soon ride across America and the world bringing economic catastrophe.

The only reason that an imminent collapse to bring the wrath of "The Day of the Lord" has not yet occurred is because of the patience of the Lord to allow time for more people to come to faith in Him.

The prophesied Pale Horse riders of the Apocalypse are already active in our world. Many are now convinced that the Rapture will occur very soon before the Lord Jesus releases the Seal Judgments in Revelation 6. The world is already now full of evil, violence, pestilence, and deaths; but all of this falls far short of the horrific conditions described with the approaching hoof beats of the Pale Horse.

Revelation 6:7-8 tells us that more than one-fourth of the entire population of the Earth will perish as the result of Jesus opening the Seals. Even after the disappearance of many genuine believers in Christ at the time of Jesus' second coming, the number that will die on Earth will exceed 1.5 billion people. By comparison total deaths from WWII were 75 million. That pales compared to what lies ahead.

The world will soon see the fulfillment of all that the Apostle John witnessed and wrote about in Revelation 6:1-8 and the sudden destruction that will overwhelm the world after the Rapture. cf. 1st Thessalonians 5:1-11.

The nearness of Jesus' second coming is imminent. All who are not committed to Christ will be without hope in a world headed for certain judgment. Jesus is the only path to Eternal Life. However, all true believers who are committed to Christ will spend eternity in Heaven before Jesus opens the seal judgments in Revelation 6.
